

Infrastructure. Engineering. Technology.

SQUIRRELLABS INFRACO (PRIVATE) LIMITED

A registered infrastructure company

Incorporated in Zimbabwe on 9 October 2026 under company number **142835A01102026**. Squirrellabs Technologies is InfraCo's controlling corporate shareholder.

InfraCo was established to develop, construct, own, operate, manage and maintain infrastructure projects and infrastructure-related assets in Zimbabwe and internationally.

Project enquiries

Solar installations: Site requirements, proposed equipment, installation scope and commissioning.

Equipping existing boreholes: Pumping requirements, power sources and the equipment needed for an already drilled borehole.

Infrastructure partnerships: Project feasibility, delivery responsibilities, technical requirements and maintenance needs.

From a requirement to an agreed scope.

How we approach a project

1. Understand the site, the requirement and existing equipment.
2. Review technical requirements and delivery responsibilities.
3. Agree the proposed scope, quotation and timing.
4. Confirm installation, commissioning and support arrangements for the agreed work.

Previous Squirrellabs project experience

Rural school - Shongamiti, Ngundu
Squirrellabs carried out solar installations and equipped an already drilled borehole at a rural school, improving access to electricity and water.

This project is previous Squirrellabs experience. It is presented separately from InfraCo's newly registered company history.

Leadership

Anesu Prince Ndava - Director
Background in electrical and electronics engineering, networking and software development.

Vulan Anotidaishe Khona Machiri - Director
Background in millwright work, mechanical and electrical systems, finance and business management.

Discuss your project

Email **hello@squirrellabs.work** or visit **www.squirrellabs.work/products/infraco**.

Include the project location, your power or water needs, existing equipment and preferred timing. Project scope and delivery commitments are agreed after review.
